Packaging

200 g/m² hollow fibre

waterproof

The all-purpose blanket Molly fulfills all requirements for relaxed reclining outdoors. The downside is waterproof (3000-mm water column); the thick, warm thermal filling consisting of hollow fiber (200 g/m²) insulates and prevents you from feeling even the smallest stones. The soft topside made from 100 % cotton flannel provides the ultimate cuddle factor. Soft, warm and dry – that's exactly how you want to lie, whether alone, with your baby, in the garden, at the picnic or while camping.
