

Hammock can be used on both sides -
with or without the net

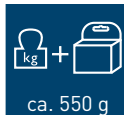

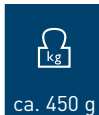

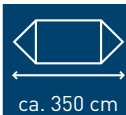

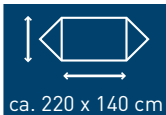

The mosquito-free outdoor quarter for all who prefer small loads and like to rock off into sleep. The permeable mosquito hammock offers as much space as a bed and can be used on both sides, with or without the net. You can get in on one side by pulling a zipper and keep the mosquito net away from your body with a rope.

We achieve additional safety through welded, sewn-in loops for hanging, and stronger hanging cords than those conventionally used. Including a free key ring.
