

Dear Customer,

Thank you so much for your purchase from Norwood Denmark. We hope that you will be delighted with your new product!

Assembly is quite straightforward - at the end of each piece, you will find a number, a symbol and a line.

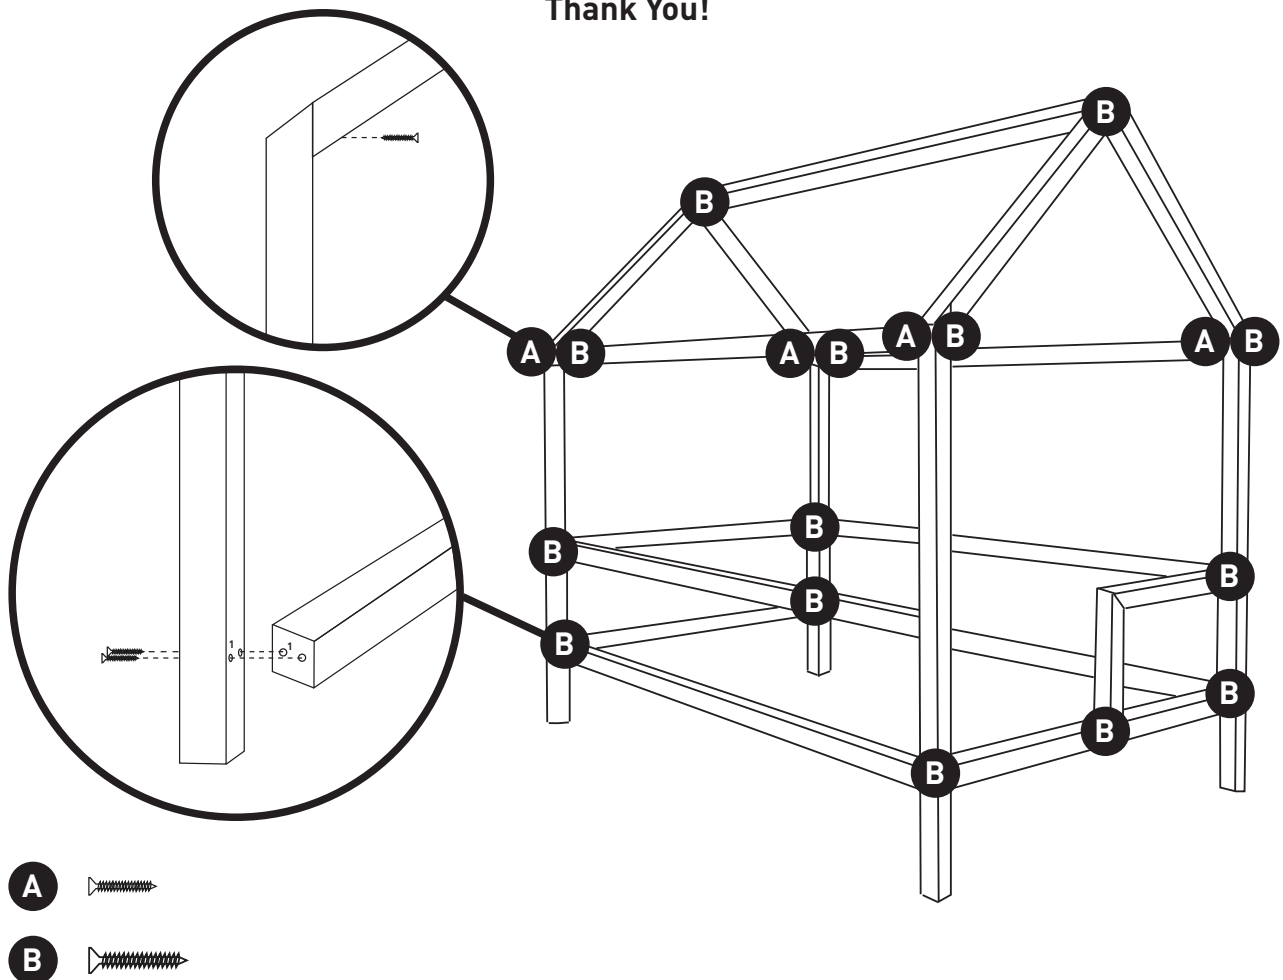

Simply match the numbers, symbols and lines together, starting from 1-1, 2-2, X-X etc.

Assemble the pieces ('rafters') marked with a symbol last.

The small screws are for the rafters and the large screws are for the rest .

Please do not hesitate to contact us at info@norwooddenmark.dk should you have any queries or require further assistance.

Thank You!
